

FOR IMMEDIATE RELEASE

Richard Grant: "Shhare" (analogue encrypted acoustic sculpture)

Exhibit dates: Friday 10th May 2019 - 1930/2300

Exhibit Location: IKLECTIK Art Lab, Old Paradise Yard, 20 Carlisle Lane,
Royal Street corner, Archbishop's park, London, SE1 7LG

"Shhare" Exhibited for the first time at "Hackoustic Presents" 2019.

Richard's latest experimental sculpture is an analogue demonstration of encryption enabling deceit that lends to intimacy via 256 possible connecting options.

Participants collaborate to find their own unique conduit of communication, whilst others seek theirs. No one can be sure of who is sharing what with whom. What might they be whispering directly into each others ears - who else might be listening?

"Shhare" is a personal sculpture by the founder of www.Son.im - Part 3dprinted, part bespoke hand made and incorporating industrial elements.

Shown alongside Richard's stunning **"Quotem"** <https://vimeo.com/307518753>

Richard has been a lifelong creative practitioner and innovator, using novel technology many years prior to widespread acceptance. His process development and experience enables wide discipline invention and novel concepts combining magical built bespoke elements. Working globally, projects cover film, content, fine art and experiential as well as his own unique acoustic and sculptural light art.

"Shhare" is available for exhibition, purchase (fully customised), or to hire for unique events and experiences.
